Chase,

Thanks for sending the updated SOV and Scope. I reviewed and had a few modifications:

- **SOV Clarification:** SWPPP Signage should be \$275 and Misc. Items should be \$1025. It evens out to the same price but just wanted to note it.
- **Markup:** specified amount Inlet protection
- **Markup:** specified the amount of washout areas.
- **Markup:** Filter sock removal isn't included in the estimate but it can be done at cost on request with change order OR if money is left on contract. Usually people just toss these in the trash.
- **Feedback:** The contract lists weekly inspections - typically the cadence is biweekly with additional inspections of 0.5"+ rain events. I wanted to confirm that you wanted weekly and if we should add more inspections to the estimate.

Looking forward to hearing from you.

Best,

—
