

INSTRUCTIONS

IDENTIFY WATER CONSERVATION MEASURES ABOVE THOSE REQUIRED BY CITY CODE THAT THE DEVELOPMENT(S) PROPOSE TO IMPLEMENT. ENTER AN "X" FOR EACH PROPOSED MEASURE. THIS TABLE IS THE INITIATION OF THIS PROCESS. ALL MEASURE REQUIRES APPROVAL OF THE WATER CONSERVATION OFFICE. CHOOSE OPTIONS THAT FIT THE DEVELOPEMENT. ITEM 7 AND 8 ARE REQUIREMENTS. ADD AN ATTACHMENT ELABORATING ON THE CONSERVATION ITEMS CHOOSEN.

TABLE 2: APPROVED SUPPLEMENTAL WATER CONSERVATION MEASURES		
FILL IN DEVELOPMENT NAME AND CITY CASE NUMBER ON TAB 1		
PROPOSED FOR THIS DEVELOPMENT (ENTER "X")	MEASURE	DESCRIPTION
	1. Submetering	Multi-family and mixed-use developments SUBMETER UNITS for leak detection and for occupants ability to manage their own water use
	2. No outdoor water features	Decorative water features outdoors can be a source of water use that is not functional
	3. Indoor water features submetered	Water features have proven to be a source of leaks. Submetering that is capable of alerts to the building monitoring system greatly reduce water waste
	4. Limitations on artificial turf	Artificial turf is a large source of heat especially during summer months.
	5. Landscaped Rainwater harvesting	Earthworks, such as berms and basins, are encouraged to promote passive rainwater harvesting for planned plants and trees
	6. Pools and splashpads submeters with monitoring technology	Pools and splashpad can be a source of leaks. Submetering that is capable of alerts to the building monitoring system greatly reduce water waste. Timers on Splash pads
REQUIRED FOR ALL LWU DEVELOPMENT (ENTER "X")	MEASURE	DESCRIPTION
	7. Cooling tower controllers with monitoring technology	Arizona high evapotranspiration rates, cooling towers use significantly more water here than in other states. Monitory systems can optimize this water use.
	8. Limitation on functional turf grass	Functional grass turf are areas used for congregation of large number of people and should be limited to up to 10% of the landscapable area.
OTHER (ENTER "X")	MEASURE	DESCRIPTION
	9. Additional measures that are specific to the development	Should there be a conversation measure the developer believes reduces water usage but is specific to the development. Discuss with the Water Conservation Office for approval
NOTES: Greywater systems and large areas of artificial turf are not recommended by water conservation. This list represents water conservation measures that the Water Conservation Office has approved and has shown to provide proven water savings.
